Claim Rejections - 35 USC § 103

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Pat. 5044513 (US'513) in view of U.S. Pat. 2524558 (US'558).

Referring to Figs. 2-5 and col. 2, line 53, through col. 3, line 22, US'513 discloses a lid 2 and vessel 6, a hinged handle 7 attached to the vessel, and latches 3, 4 attached to the vessel, wherein after the handle is raised the latches are manually engaged to secure the lid to the vessel. The claims differ from the disclosure of US'513 only in calling specifically for a pot, and a lid gasket. However, US'558 shows that lid locking means are appropriate for a cooking pot, and a gasket desirable to seal it. It would have been obvious to implement the lid securing means of US'513 in a cooking pot since cooking pots can require such, and US'513 discloses the particular advantage of allowing the latch mechanism to be either engaged or disengaged when the handle is in the raised position.

Allowable Subject Matter

Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-14 are allowed.
